Lost the Remote wrote on Mon, 31 July 2017 16:04Bcharlton, it's a bit like having someone read to you. That way you can focus your eyes on something else and use your hands to do something else. They're perfect for long commutes. Keeps me awake and engaged overall.
I'm not sure if this can work for me since I tend to miss out on a few words when listening. Do the audio books give the option of rewinding?
