Hello Wayne,

Could you send me plans for the Pi 6 corner horns? I'm finishing up a 20'X14' room for a music-focused home theater. I'll get it going using 4 x 2 Pi's and one 1 Pi, but corners are available and corner speakers will work in all sorts of ways. I think I would prefer the 6 Pi rather than the 7 Pi because they are a little taller, and my screen bottom is at 46" (8' X 4.5' on 9.5, room walls. Hope all's well with you,

Skip
