Subject: Re: Self-hosting streaming apps Posted by Aria on Tue, 16 Jan 2018 16:47:46 GMT View Forum Message <> Reply to Message

You know, I have Amazon Prime but I haven't ever used the music streaming. I always mean to and then I just, well, forget. Is it worth me trying to remember to give it a shot? I know you said you like Pandora because you can set up channels, but is there anything Amazon does that's unique, even if it's not something you really need?
