Subject: Laptop Speakers In Mono
Posted by Kingfish on Fri, 09 Feb 2018 14:39:38 GMT

Am I the only one who thinks that factory installed speakers in a laptop sound like mono? I listented to a Kid Rock song a little bit ago, and yeah, it sounded like mono.

If I'm not the only one, am I the only one who enjoys that stripped down sound every once in a while?
