Subject: Re: Ceiling speakers Posted by johnnycamp5 on Wed, 04 Apr 2018 22:05:38 GMT View Forum Message <> Reply to Message

I have read about that as well, it doesn't make sense to me. I believe there is some type of system using ceiling speakers called "atmos".

I wonder if perhaps subs (being low passed under the a-typical 80Hz) would work ceiling mounted, with localization or directional cues being mininmal
