I voted for "other" because I couldn't choose between these movies and some other great movies that I loved from the '90s. I don't really know what exactly makes something a "cult classic" but these are some of my favorite films from the '90s that I think fit:

- Reservoir Dogs
- Dazed and Confused
- The Boondock Saints
- Angus
- The Cable Guy
- The Sandlot

For you all who were confused about whether or not TV shows were included because Buffy the Vampire Slayer was on the list, it was a movie first.
