Subject: Re: Does best picture = bigger projector? Posted by Strum Drum on Thu, 12 Apr 2018 02:16:38 GMT View Forum Message <> Reply to Message

You may be on to something about the room being too bright to produce a good picture, Khanman. I need to pull it out of the closet and try it again to test that theory out. I might purchase a newer model for work and personal entertainment and I prefer mini projectors if I can get a good picture. Thanks for the suggestion.
