Subject: Universal Remotes

I had to buy a universal remote because having sux separate remotes was driving me mad. I was concerned about setting it up - but it was super easy in the end. It comes with codes for replacing most other remotes and my side table is less cluttered.

I bought a Harmony 650 by Logitech and it wasn't expensive - under $30.

What are the best universal remotes out there and WHY didn't I buy one sooner?
