Subject: 2 Pi + 2 Pi Tower Plans Request

I purchased a pair of Alpha 10's some time ago for a project that never materialized. Looking for a good way to put them to use, I found the Pi Speakers site. I can source the tweeter for the 2 Pi locally so I would like to build a pair, either of the 2 Pi or the 2 Pi tower. Are there plans available for both? How can I obtain them?

Merci beaucoup.
