Thanks Wayne for the reply, sorry to be slow to respond.

I will have to start with just a single sub for LFE, and work a second one in at a later date.

Do you have a suggestion for a plate amp?

Any thoughts on making a center channel from my 1Pi parts?

BTW, I started writing the build thread for the 2Pi Towers and the 6Pi cornerhorns. Should get the first post up when I find some time and feel like writing.

Thanks again,
-Josh
