For all you old fogies out there.....Remember when the teacher would set up a projector to show something concerning a class project? Do you remember if the teacher made everyone move their desks so everyone would be at roughly the same distance from the screen?

One of my teachers used to do that, and I think it had to do with the throw ratio.

http://www.projectorcentral.com/classroom_projector_buyers_guide_throw_distance_zoom.htm

Anyone else remember those "Good Ole Days"?
