I am currently looking into buying a ticket to a concert, but I was a bit late so all that is left is VIP tickets, which basically means VIP entrance and good seats and some memorabilia. It costs a pretty penny, which made me wonder how much is too much to be spending on a concert... What is the most you've ever spent on a concert ticket and what was included?

I think the most I've ever spent was about $450, which was a VIP experience including meet & greet.
