Lennix wrote on Sun, 05 August 2018 11:29You got a drone? How cool! There are a few sources out there for royalty free music. This is a pretty good list. What kind of music are you looking for?

Thanks for the recommendations. I am looking for instrumental music that fits the whole drone footage feel. I like getting drone shots over the city and hills, especially at sunset. So something a bit calm works. Yeah, I have a drone but it's just a cheap one for practice before I invest in an expensive one.
