Hi Fred, Yup, I may have yet to go that way. Right now I have more LPs and CDs than I can ever listen to. I continue to get more from ZIA record exchange as well as other sources. Lots of pristine ones (and some really damaged ones too) available for zilch \$\$\$. I do sort of use digital....I have Sirius/XM in the vehicle and playing in the background in the shop. Lots of choices on it and it is only \$11 a month. Certainly not up to the quality I get on my main system...but then it is extremely portable. The ton of gear won't fit in either the shop or vehicle. :?
