Hi Everyone, It has been a trying year at Oddwatt Audio. First major supplier issues. The companies that were fabricating stuff for us decided they were now doing well enough that they didn't have to deal with smaller companies. Second the Sales Dept had to move. Any move is a challenge and with a zillion components and all the records and such that go along with the business end...yuck. Hope is on the horizon now. Everything has been moved...it is still in boxes but that is a step in the right direction. With just a tad bit of good luck we should be up to steam on the sales end by late spring. Support has not been affected by any of this and has been on line the whole time.

Wishing you all a great new year
