TheWanderer wrote on Mon, 21 January 2019 19:23I only use an actual radio when I'm in my car driving. When I want to listen to the radio at home I use an app or go to the station's website and stream the audio. How often do you use an actual radio to tune in?
This makes the two of us. These apps have it much easier to tune in at any time but nothing comes close to listening to an actual radio. I guess we are heading to a time when there will hardly be any reason to purchase a radio.
