Subject: Re: Where do you look for ideas? Posted by Madison on Fri, 05 Apr 2019 14:29:37 GMT View Forum Message <> Reply to Message

Lifehacker is good for easy stuff. I found my first DIY project there which was making sound panels. I've found tons of useful, easy to manage projects on Makezine. The site also has some simple audio/visual projects for kids that we've tried with good results. I think most of the Hackaday projects are too difficult to recreate, but I love checking out that website just to see what's possible.
