I don't know if this is of any help, or if you've tried.

But this is an absolute crock of Kaka. Sorry you've been hijacked by this unscrupulous form of personal snooping. Deregulation is seen as a way to unleash the power of business efficiency. At the expense of consumer privacy and satisfaction. Legislation, as usual, is way behind the benefit of the public. They think anything good for corporate welfare will somehow make our lives better and better, all the time.
