I thought they were called one hit wonders. But more power to them if they get two out of a tough field to be in. Entertainment. I think it's obvious that an artist with staying power with multiple hit's is a natural to have an appreciating public. Even if some of them are personally, jerks. Like Jerry Lee Lewis, or Miles Davis. Those one or two hit wonders have their modest contribution's to be admired, but more likely than not. Have to be looked up to know who did it.
