TheWanderer wrote on Mon, 29 April 2019 02:10Wow, incredible. I would love that. I really don't like how headphones feel on my ears. This would be amazing. Hopefully they can improve the quality of the audio.
At times, it gets uncomfortable to have headphones on and so this could be an innovation that will resonate with a lot of people. If successful, Noveto will want to greatly improve the quality of the audio (among many other things) so as to get as many people as possible, on board.
