Come one, come all! We're having a contest, and the winner gets a 5-album half-speed master Woodstock box set. Colin Hester has graciously donated these albums for the contest, and they

be substituted instead. It's the winners choice.The game is easy to play. Whoever makes the 25,000th post is the winner. It's that simple. A response will be made to the winning post telling them that they have won. They will be asked to respond with their prize choice, and to make their shipping address available by private E-Mail. Right now, there are 23032 posts in the system. Post are made at the rate of about 30-50 per day, so that means the winning post will probably occur sometime in the next month and a half to two months. Any post in any forum on AudioRoundTable.com is eligible for the winning entry, and no registration is required.
