Hi, Yeah. All well and good to cut the cable if you can get local programming for news etc. Here that is not possible. Cutting the cable here is like shooting your self in the foot. :(The cable provider is also the best internet provider so you are likely to have to pay him anyhow. Worse the speed will probably have to be increased thus more \$\$\$\$. I figure now that my cable (incl phone and internet) and cell phones cost more than my house payment (it is low though) and I cover my daughters cells too. Way back the CATV (whopping 12 channels) and land line together were under \$25 a month. Ugh. :x
