Miami wrote on Sun, 17 November 2019 12:00In a case like this, I suppose a professional sound mixer in a recording studio could moonlight his services by getting the sound right in a home theater set-up.

Adjusting all the knobs to get the sound "just right" would be the extent of his work.
Can I print out a fake degree from Full Sail and get in on this side hustle? :lol: I have an ear for music, I know what sounds good to me and I know how to adjust the bass and treble. If I need more experience, I'll consult professor You Tube.

I kid, but that does sound like a good idea.
