Subject: Biggest waste of money? Posted by Leot55 on Tue, 21 Jan 2020 21:46:03 GMT View Forum Message <> Reply to Message

Some changes offer more bang for the buck than others, so which do you think are the biggest waste of money? Maybe the gadget/addition/treatment/improvement enhances the audio, but the return is minuscule when compared to the cost. Personally, I don't think those foam acoustic panels do much, but they're often recommended as a first step. At least they aren't terribly expensive though.
