Taurus wrote on Wed, 05 February 2020 23:46 Anyway, I am in favor of using earbuds or headphones if someone wants to enjoy all the musical details. If you just need something loud to scream with, HP is a good choice for many reasons beyond the speakers. I think Lenovo works with JBL for speakers; you may want to check that out too.

I agree because most people hardly use the laptop's external speakers. It may be best to use good quality earbuds and headphones. There is a wide variety of them that you can get at a bargain.
