I think we've got some Star Trek fans here, so is anyone else watching this show? It's amazing how little Patrick Stewart seems to have aged over the years and Jean-Luc Picard is one of my favorite characters borne from the franchise. Though he isn't quite the same. It's nice to see some of the old cast members too. A couple of episodes were slow, but the last two have been especially good. But I'm not sure where we're going and the season is supposed to end soon.
