JW, I often use really well recorded selections to check response, naturalness, dynamics, damping etc. Here are just a few selections I have found that might help you and others.

The first is a percussion recording. I found it extremely natural, amazingly good.

https://www.youtube.com/watch?v=B7Iab-AC3Dw

Higest C piano note.

https://www.youtube.com/watch?v=WmQer6N10aM

Lowest A piano note.
