These guys are not polished musicians. They're like a drive-in B-grade movie with Bruce Dern in The Incredible Two Headed Transplant. The album Voodoo Trucker is their tribute to truck driving music, but creep'd out. As they say. Fun stuff with beer in hand. Like the liner notes explain, "in the studio, we do two takes only, and if we screw it up we don't use it. Our fans would know it if it sounded polished". Wished I'd a been able to see them play live. Found out about them too late. Deadbolt. The most dangerous band in the world they billed themselves. Twang and macabre music.
