I own a Jenalabs (Jena Technologies, LLC) Easy ONE A-C power line conditioner for sale.

Hardly used, protects from RF interference, AC line hash etc. Attached are photos.

New: \$1,000.00 new (was \$1600.00), sale price \$700.00 or make an offer. If I like it you got it.

Mine has two cords rather than one, a special indeed. Protects two components rather than one.
