Hi, I think I have nearly everything from the last 45 years. Lots of good stuff like the Marantz 1060 integrated amp that is right above my head now and provides sound in my shop to so many pairs of speakers that I lost count years ago. I had to buy a 12X10 barn style shed to hold the stuff that didn't require temp control, everything else is in a huge closet or on display. I also keep the originals of all my designs (all still work fine BTW).
