Subject: 3 Pi plan request

Hi,

Could you send me the plans for 3Pi, please?
Initially I was thinking about building 4Pi but the only Jbl 2226H which I found was in bad condition and after some reading about different drivers for 3pi I figured out that it will be better (and safer) option for me. I already have the B&C de250 and have opportunity to locally order new pair of B&C 12PLB100.
I've seen that you really recommend this driver so I'm really excited about it.
Thanks!
