docjrev wrote on Sun, 14 February 2021 18:37I use an "AudioTool" program from StudioSix called speaker polarity detector to detect polarity while playing a "speaker pop wav file".

Great tip on this speaker polarity tester. After googling a bit, I found in addition to the tool being bundled within AudioTools, it is also available standalone for a bit of cost savings:

<https://apps.apple.com/us/app/speaker-polarity/id293263027>
