Leot55 wrote on Wed, 24 February 2021 15:19I created a theater room with dark paint, theater seats, and such. I made the "screen" by painting the wall white and framing it in with black paint. It looks pretty nice. I didn't make the projector itself, though. You should go for it.
Thanks, man. One of my worries was the movie not becoming clear enough when projected because of the background. This gives me an idea about how I should set up my "theater" now.
