Acacia wrote on Mon, 22 February 2021 12:24 It depends on the activity that I'd be doing because working out, anime openings/endings are my go-to music. I can't listen to this when studying though so I listen to background noises instead that aren't too intrusive.

I like listening to anime openings when I'm working on homework for my art related classes. But when I'm reading or writing a paper, I find anime openings to be way too distracting! I never thought about listening to anime openings as work-out music. I'll have to try that!
