I hadn't heard or seen it. But curious watched some scenes and read a little of it's history. I wonder if this movie's cult status is explained by how wretchedly bad it is. Acting, plot and well, everything. So, like the ugly dog contest that is popular, this movie is a poster child for bad cinema. So bad it has redeeming qualities. It's competing with John Travolta's sci-fi scientology epic flop, Battlefield Earth. I think though, this movie recouped at least more income making it with it's cult status than Travolta could ever wish.
