PinkHair wrote on Sun, 25 July 2021 19:09 Here's a Nickelback song written by a bot called Nickelbot! I thought it was really funny. The creator put the lyrics of Nickelback songs into the bot, and this is what it came up with.

Here's the link!

https://youtu.be/_aHgTaPd3nA

This is really funny! I like how there are bits and pieces of other Nickelback songs that I can recognize all thrown in here. Do you know if the music itself was written by the bot, or if it was an already existing piece of Nickelback music?
