Subject: Sound Machines for a Better Sleep Posted by Spotifier on Wed, 27 Oct 2021 07:52:04 GMT View Forum Message <> Reply to Message

I came across this while searching for how to sleep better. Seeing that this is a thing tells a lot about how people are having a hard time fixing their sleep. There are sounds like these on our phones, but relying on that can lead you to use other apps. Since these are below \$50, it's not so bad to try and have one. Do you think it's practical, though?
