LCallan wrote on Tue, 07 December 2021 16:50 I feel for all the parents who are looking for a PS5 for their kid's Christmas present this year. I have yet to see them on the shelves.

There is a radio personality where I live who recounted her own story about this on-air a few weeks back. She ordered one of those Playstations for her son back in 2020, and it took 11 months for it to arrive.

It's almost as if you need to do what you can in brick and mortars this year, and shop online for 2022 Christmas gifts.
