Subject: Re: Earphone Recommendations? Posted by Strum Drum on Wed, 20 Apr 2022 01:12:23 GMT View Forum Message <> Reply to Message

I'm not someone who can comfortably use earbuds, so I usually go for the over the ear headphones. I've been using the ones made by Bose. I believe they're just called the Bose 700. I can wear them for hours without feeling too hot. The mic works perfectly. The downside? Well, that's the price. I got a discount through work, or I'm not sure that I would've sprung for them.
