Things that might be there.

A list taken from 2018. I did not see any of this in the photos, but I'm pretty sure that much of it is still there. It's a gamble, really. If you want to buy the lot, some of this stuff will be there for sure. There are also items there that John mentioned but that I do not see on the list.

To be clear. This is a guess! Not all of this will be there, and the quantities listed were current ONLY in 2018.
