Subject: Re: DeVille 212 amp trouble. Posted by James on Mon, 24 Apr 2006 20:59:53 GMT View Forum Message <> Reply to Message

Well, this might be my lucky day. With all the voltages okay, I used a trouble light and magnifying glass and found some cold solder joints where the tube socket meets the PC board. A few minutes later, bingo! I THINK the trouble has been resolved. Can tell more later. Again thanks for all the tips and ideas...JAMES
