"Lets just fight". Eazy for him to say. You do the fighting & dying. We'll supply the weapons. Here's a Ukrainian TV interview with David Arakhamia. Head of the Ukrainian delegation of peace talks prior to the Russian invasion. Then British prime minister Boris Johnson visiting Kiev announced that the western, (US, Britain and NATO countries), made that statement and said they would not sign the document for Ukrainian neutrality. Which was the "main point" Russia had insisted upon. Russia's red line.

Russia beat our sanctions. Taken the territory that could have been bargained with before. Not now. They've improved their economy. Aligned with the southern tier of nations to form BRICS to de-dollarize. And they've decimated the Ukrainian army and the NATO weapons that made no difference. Secretary of Defense Lloyd Austin visited Kiev recently that military pundits referred to as, "a hospice visit".

It's starting to unfold. The subterfuge behind the war.

The war that didn't need to be. Thousands... Dead.
