I have to speak out again in this thread of the total perversion that Israel is perpetrating on the people of Palestinian heritage. It's barbaric and brutal. The latest is the deliberate massacre of desperate, starving people lured to aid trucks to shoot at by the Israeli IDF. The trucks were not UN sponsored. As if starving a populous isn't reason enough for the World Courts ruling on their genocide behavior.

All the while our government keeps sending them implements of warfare to accomplish what their perverted leadership ulterior motives are. Ridding all Palestinians once and for all. SICK!

The victim becomes the perpetrator. As childhood violence begets a cycle of violence. The Israeli's behave as the Nazi's did to them.
