Subject: Voice Actors Posted by Echo on Fri, 05 Apr 2024 15:01:41 GMT View Forum Message <> Reply to Message

What do you think about the importance of voice actors in movies when it's a non-human character? In my opinion, the actor can make or break the character and is capable of making you either love or hate the movie/TV show.

One example comes to mind: Smaug, the dragon in The Hobbit. I think Benedict Cumberbatch did a brilliant job there.

What do you guys think?
