Subject: Re: to RIAA or not Posted by gofar99 on Fri, 09 Aug 2024 02:25:36 GMT View Forum Message <> Reply to Message

Hi, I suspect it does that. I have a number of ADCs and DACs plus lots of software to fool around with. A quick check of Audacity indicated it was easy to create a RIAA eq. I intend to try feeding directly from a cartridge into a SIIG ADC and then save as a wave file at 34/96. Using that in Audacity apply the eq and adjust the level as needed. It would seem to be a way to do it. Dynamic range on the SIIG is 108 so it should be adequate. More to follow....
