Wow, mix tapes. I used to do that quite a bit. Fun making them, then listening. I still have a 3 head Sony cassette player. It needs a new drive belt I'm reckoning. Tapes won't turn. Just a matter of buying one. I've downloaded a video how-to for doing the job. Seems the tape medium has come back also some. I never cared for the Dolby settings though. It just seemed to suck out all the brilliance of the recording. I'd take a little tape hiss over it.
