Subject: Looking At Dacs? Posted by FredT on Tue, 29 Aug 2006 21:59:05 GMT View Forum Message <> Reply to Message

No, I got a Lite Audio DAC-60, which I upgraded with Sonicap output coupling caps and a choke in the high voltage power supply. Very happy with it driven by the Squeezebox 3. I also have a Scott Nixon tube dac which is nice but not in the same league as the DAC-60, and a Lite Audio DAC-AH, which is ok but nothing to celebrate. Upgrading the DAC-60
