Wayne, you beat me to it! I was about to post the link here...

THANK YOU so much for presenting to our group! It was a privilege to get so much time with you and to hear the Pi Speakers story. I personally came a way with all kinds of new understanding of horn geometries, baffle diffraction strategies, and subwoofers. Like any good talk, it filled me with ambition to build a new system! :lol:

Thank you again!

- Ken
