Uilleam Audio (Room 223)

Mike Lundy at Uilleam Audio has transformed over the last ten years or so. He has always been a fantastic woodworker, but early on, he built GR Research designs almost exclusively. Over the years, he began to take on builds of other brands and now I think he is overrun with work from almost everyone.

He has also branched out into other things besides just loudspeakers. Look at these amazing samples of his work!
