Every morning now I'm reading of another airstrike in Gaza. Killing 40, 50 or more with people in the rubble still. The world goes on in its ways. But Gaza must be hell on earth while being starved on top of the terror of night time bombing.

No one seems to care. I suppose they deserve it right? After the October raid and all. The lady that cares though makes note to, Imagine if Gaza Was Jewish And The People Bombing it Were Muslims?

Our country is still helping this scene happen.
